THE AGRICULTURAL SHOW.

We learn that it is proposed henceforth to hold the Agricultural Show at Cairo biennially instead of annually, and the next Show given by the Khedivial Agricultural Society at Ghezireh will take place in the spring of 1907. It is felt at the headquarters of the K.A.S. that the annual agricultural shows have done their work of educating the cultivators; the days are past when the native farmer assumed that he had seen the last of his cow when he sent it to compete and the majority of exhibitors scouted the idea that they would ever see the prizes offered except in the society's notices. The cultivator has now full confidence in the integrity of the Agricultural Society and in the justice of its awards, he has also learned to apply to it for assistance against insect pests and for advice as to the roper methods of cultivation; and the forms tion of provincial branches of the society with agricultural experts as secretaries, which has been begun, will, in course of time, furnish each moudirieh with a centre to which all can apply for advice and for certain forms of assistance. It is an open secret that the work at headquarters has often been made unduly heavy by the necessity of holding yearly shows, and it is now proposed to hold provincial exhi-Mansourah and the Fayoum set the example

this year. In 1906 one exhibition will be held in Lower and one in Upper Egypt, and to judge from the success of this year's exhibitions, both should be largely attended and have valuable educational results. It may be argued that these results will be equally well secured by an exhibition at Ghezireh, but this contention does not allow for the fact that large numbers of the smaller proprietors do not and cannot visit the Cairo shows, and that it is precisely this class which the Khedivial Agricultural Society wishes to interest and to inspire with up-to-date ideas on the subject of cultivation. As to the exhibits of machinery, it is much to be regretted that any firms should have found the notice given them of the postponement of the Agricultural Show at Cairo till 1907 too short, but if the matter be considered from a general point of view it will be recognised that the exhibitors of agricultural machinery will not be the sufferers by the change. The very transport of their machines to Cairo and their installation and protection at the exhibitions occupied the time of numerous employés who could ill be spared, and gave the agents themselves great trouble, while there was not the same variety in the machines exhibited that would be noticeable in biennial exhibitions,

Captain R. C. Owen has been appointed Director of the Intelligence Department and Sudan Agent at Cairo.

THE PHARMACY REGULATIONS.

We mentioned in our issue of the 16th nltimo two serious infringements of the new pharmacy regulations which came into operation about a year ago. These prove how necessary it is for the Sanitary Administration to use the atmost vigilance for serious actions to use the atmost vigilance for serious to open a pharmacy, sent in a diploma that was ascertained to have belonged to a man who had been dead since 1896! In the other cases three individuals sent in diplomas properties to have been issued by the Faculty of Meditions of Athens but which, when subjected to expert examination, were found to be forged.

The officials of the Department, since the

The officials of the Department, since the new regulations came into operation, have taken in hand the inspection of pharmacies, but it seems they are greatly hampered by the action of the Tribunals who, when clear the action of the Tribunals, who, rhen clear cases of irregularities are brought to their, notice, indice such a ridiculously small punishment that it cannot possibly act as a deterrent. Recoulty, we see informed, at Mansoursh, two individuals, one a Greek and, the other an Italian, were summoned for keeping a pharmacy open for three months without a certificated chemist. The Tribunal Mixte de Contravention inflicted for this grave offence the minimum fine of P.T. 5 in one case and P.T. 10 in the other!

NEW KHEDIVIAL HOTEL.

The New Khedivial Hotel at Alaxandria, while is at present being control processes, will be quite ready for occupation again by the coming Christmas. It will, when completed, contain altogether 150 betrooms and treasty saites of special apartments litted with bathrooms, closets, and other accommodation. The gill-room will be open on the 1st December, and aftermout near will be served in the new pavilien on the terrace. A fine Trigone hand has been specially engaged for the hotel and will play three times a day.

A special feature of the hotel will be the residential apartments for bachelors and families, who will be able to live at the hotel at an inclusive and moderate cost for board and lodging. I it-rap toolt that this inservation will be taken full advantage of and owing to the poor restaurants and high result as Alaxandria such accommodation will be a great advantage to residents.

Another special feature of the hotel will be the cooking The isselding 'other' at the Meteropic Hotel, Moste Carlo, has been engaged, and arrived on Boardsy last with an estitic brigade of gastronomic artists selected with the utmost care from among the Isading Boropan hotels and restaurants. L'action Brasserie des Pyrafnides est calme anx environs de 115.

La production et les recettes de cette Société sont en progrès sur les chiffres de l'aunce pasée. Il y a déju nu erprise de environ £300 et il sers probablement possible de distribuer cette année un dividende.

Le titre est actualisment classé ; il ne faut donc par s'attendra à de grouses flottnations sur cette valour, par plus à la hauses qu'à la baise. Il y a pourtant un délement de plus-value dont il y a lieu de tenir compts. C'est la propriété de la Société. Il y a 90,000 mètres de terrains, dont 60,000 pouront être venden un de ces jours à un prix qui premettra vendus un de ces jours à un prix qui permettra probablement le remboursement du capital

ITS ORIGIN AND INFLUENCE.

Our native contemporary "Al Sahah" makes the following community:

It is wonderful that tones intellectual popular in Egypt with a stream of Egypt with the stream of the Sanah and the races, whether Egyptians, Medes, Persian, for Franks, and "the acquisition of the horse by the Arabe was a main factor in the spreading of Franks, and "the acquisition of Laboratory". On the ultimate origin of the Libyan breed it is impossible to degmatine, Wild horses may have passed into Africa in prehistoric times from Asia or Boropa, and nader the special conditions of African life have developed their peopliar build and oclouring, Professor Ridgeway thinks that the same conditions produced the colouring of the Libyan horses and the quagga. "The evidence of it othersteristic by colour, the not infrequent occurrences of stripes on its head, body, and legs, it dark site resembling that of the sobra, its special fecundity in North Africa, all point to its being no merely artificial breed, formed under domastication by careful selection by man, but indicate clearly that it is a distinct variety developed during a long succession of time in Libya, under conditions similar to those which have produced some of the sobra, with their finely formed limbs, their clark kin, and striped bodies." The other alternative—that it is the result of crossing the domestic horses from Asia with some variety of striped African Egyidaes—is refutal by Protessor Cossar Ewarts recont experiments, which show the sterility of zebra-borse hybris.

PICNICS AND BRIDGE NEAR THE

PYRAMIDS.

A novel desert camping-out party has been organised by Miss Mins Sheppard to start from Gairo on November 16.

Miss Sheppard, who has had much experience of the life, has engaged a dragoman who has heen known to been for must been known to be for many years. Beeh, member of the party will have a double-roofed leeping tent of which the interior is sworked by Araba with coloured linens. The floor will be press with an Oriental carget.

There will be a large dining tent for all and a drawing-room tent for the ladies. The camp will be near the Pyramids, and within easy reach of Gairo by transway.

Everybody in the camp will do mactly as they like going to plenice, or for shooting expeditions, or basars shopping under the charge of the dragoman.

In the evening, after witnessing the glorious sunset, they will it over the camp fires and listen to musis or play bridge. The advantage of going with a party is that the inclusive expense only comes to £7 a week instead of the usual £2 a day demanded by a dragoman.

A. S. C. v. E. T. C.

A football match was played on the Alexandria Sporting Club ground on Saturday between the club and the E.T.C. Theying with the wind the E.T.C. made the best of their opportunities and by half time had scored three goals. The third goal was from a fine overhead shot by Byrns, Dawson not having time to get back from a previous clearance. During the first half the leaders had most of the play but when the teams crossed over the play the transport of the play but when the teams crossed over the olive hid most of the pressing and were certainly value for a cooped of goals. The E.T.C. defined, however, was too good and they failed to access. From one of their conscional breaks away the E.T.C. added a fourth point, and they thus wor by 4 to nil. The defector on both sides was better than the "offence." Mustard was in excellent form at back for the club and certainly kept the soring down. Harrian kept goal very well. He has since left for Sure and the E.T.C. will find it hard to replace bim. A restor match has been arranged for Saturday, the 18th inst., when the A.S.C. hope to reverse the result.

SAINT ANDREW F. C.

BAINT ANDREW P. C.

The above club has now opened its season, and up to date two matches have been played. In both games the club team has been rather severely beaten, but it has to be soknow-ledged that the teams opposed to them were exceptionally strong, and had the advantage of having played in previous matches, whilst the Saint's teams so far have been of rather an experienced a latter. The committee, however, are now satisfied that in rature they will be able to put a good team in the field, and some good games should be witnessed both on the ground of the club at Moharrem Bey and in their away matches. The first game of the season was played on Satorday, 23th October, at Mustapha Pasha parade-ground, the opposing team being the Departmental Corps F. C. The game was off a rather one-sided nature, the home team being all over the visitors' defence. The homesters' defence, on the other hand, was excellent and the Saint's forwards seldom got past Hopkins and Davis. The play of the two backs aforementioned, and Saint Andrews' were very deservedly beaten by 5 goals to nil Clair, for the visitors, made some splendid efforts to notch a point for his side, but these were wated through lack of support from the halves. Smith was the only man in the half-back line who was doing work, and even he fell away through want of support. The following were the teams:—

The second game was a loo played at Mustapha, on Saturday last, when the Saints had-pha, on Saturday last, when the Saints had-pha on Saturday last, when the Saints had-pha on Saturday last, when the Saints had-pha on Saturday last, when the Saints had below the Company of the Polymon of the Saints of the Company of t better team. Although besters by 5 goals to 1. On however, this and box except perpensate the run of the play, and box for some hard look in a least two of the goals socred, the margin would have been narrows. The "Dub" showed the face combination throughout, and were quite value for a win. The saw

Saints' defence again lacked judgment, but all round there was a general improvement over the form diplayed in the opening game. Indeed, a corresponding improvement this week should ensure for the Saints their first win of the season. Clark's play last Saturday was again the outstanding feature of the game from the Saints' point of view. The teams were 16 words . . . P.T. 5 P.T. 10 P.T. 15 words P.T. 5 P.T. 10 P.T. 15

BOULAG v. "D" Co. K. R. R.
A football match was played at Bonlac last
Priday between the home team and "D" Compy.
KR.R. Corps. The verandah was crowded as
usual with spectators. Bonlac last that tose
and desineded the Embabbe nod. As soon as
the kick-off was performed it was visible that
a fast game was in store. After a great deal of
pressing by "D" Compy, and a good many attakes on the visitors" cantedians, Bonlac had had
look, by scoring a goal for their antagonists.
The home back kicked the ball on to his
mate's back and from there it rebounded into
goal.

goal.

On the resumption of play, the home forwards, by a bit of combination, gradually worked the ball up to their opponents goal and scored through L Lion. When half-time and scored through L Lion. When half-time of ends D Compy, began pressing, but subsequently the home forwards got the ball and before the opponing backs knew what had happened, Boulas scored through Hayes. D Compy, then resumed their statoking and stove in vain to equalise, but found the home defence too strong, and so when the whitely defence too strong, and so when the whist blew, Boulac were left victors by 2-1 goal
